

Question 4

Print the multiplication tables from 1 to 10, but skip the table of any number that is a multiple of 3

Pseudo code

Begin

Declare N and m as integer

Assign $N \leftarrow 1$

while $N \leq 10$

if $N \% 3 \neq 0$

$M \leftarrow 1$

while $M \leq 10$

Display N, "x", M, "=", $N \times M$

$M \leftarrow M + 1$

end while

end if

$N \leftarrow N + 1$

end while

Stop

Algorithm

1. start
2. Set $N=1$
3. Repeat while $N \leq 10$
 - check wheather N is a multiple of 3.
 - If $N \% 3 = 0$, skip this table
 - Otherwise, set $M=1$
 - Repeat while $M \leq 10$
 - Calculate $N \times M$.
 - Display $N \times M = \text{result}$.
 - Increase M by 1.
 - Increase N by 1
4. stop.
